EXPERIENCE

SOFTWARE ENGINEER | ANACLE SYSTEMS LTD

2022 - PRESENT | Singapore

- Collaborated with cross-functional teams to design, build, and deliver end-to-end solutions for global real estate companies and government agencies.

- Customized and maintained a web-based enterprise resource planning application specializing in lease, license, and tenancy management.

- Also conducted testing, debugging, documentation, and deployment of the web application, providing technical support and troubleshooting for end-users, and spearheading development of internal tools.

C# | .NET Framework | SQL | ASP.NET | SQL Server | MySQL | GIT | SVN

FULL STACK DEVELOPER | ALFACOM TECHNOLOGIES M SDN BHD

2017 - 2022 | Malaysia

- Lead developer of a centralized web portal, document repository, and knowledge management system for RGE Group, spanning more than 500 users in Singapore, Indonesia, Brazil, and China.

- Provided leadership to a team of developers through close collaboration and mentoring, ensuring successful project delivery, driving complex changes, and delivering quality software solutions.

- Delivered multiple projects for Securities Commission Malaysia, implementing market-facing web applications for security lodgement management, business process automation, statistics, and reporting.

- Spearheaded the development of a new in-house web application framework, transitioning from AngularJS to React. This framework has since become the new baseline for projects moving forward.
